

FOR IMMEDIATE RELEASE

BY LIGHT AWARDED PRIME CONTRACT UNDER TRANSFORMATION TWENTY-ONE TOTAL TECHNOLOGY (T4) FOR THE US DEPARTMENT OF VETERANS AFFAIRS

By Light Selected to Provide Technology Services Under a \$12 Billion Program Ceiling Contract

ARLINGTON, VA, July 13, 2011 — By Light Professional IT Services, Inc. (By Light) today announced that it has been awarded a prime contract by the US Department of Veterans Affairs (VA) for its Transformation Twenty-One Total Technology, or T4, Program. By Light will provide a broad range of systems engineering and information technology (IT) telecommunication services to the VA and their customers under the new \$12 billion five-year contract.

“As a veteran-owned small business, we are proud to be selected by the VA to deliver innovative, efficient, and cost-effective solutions to meet the agency’s IT modernization goals,” said LTG (Ret) Robert Donahue, CEO of By Light.

The VA selected 15 vendors to provide technology services under the new T4 program, a multiple award, indefinite delivery, indefinite quantity contract. The program allows VA access to a comprehensive, world-wide, IT solution to support both VA and non-VA customers. By Light was selected as one of seven service-disabled veteran small business and veteran-owned small businesses under the contract to offer a broad range of IT telecommunication services to the VA, including program management and strategy planning, and systems and software engineering, among others.

“It is increasingly clear that technology enables companies to thrive and provide the most efficient service to its customers,” said Bob Donahue, President of By Light. “As a veteran, I understand the need to better serve our nation’s veterans, and our T4 team is committed to supporting the VA and Secretary Shinseki’s 16 initiatives.”

By Light Professional IT Services, Inc. is an ISO 9001:2008 registered and certified Service Disabled Veteran Owned Small Business (SDVOSB) specializing in network design and implementation; systems engineering; project management; and software development. Headquartered in Clarendon, VA, By Light was founded in 2002 by industry and DoD professionals with extensive knowledge and experience in the Federal Healthcare vertical. By Light serves civilian, defense, and commercial customers worldwide. For additional information, visit our website at www.bylight.com.
